

# Rally and march

We are mobilizing to stop Jon Love and KingSett Capital from building a condo tower at 214-230 Sherbourne. We are demanding that Counsellor Chris Moise and the city begin negotiations with KingSett Capital to buy back these contested properties and build much needed social housing. If KingSett refuses to negotiate the city must start the process of expropriating the land. We are also calling on all three levels of governments to develop a public housing program to build public owned housing across the country.
